Evidence Checklist - Activity 8

BOP Design: Evaluate a Human B2B Brand in an AI-Saturated Market

[ ] Public facts are cited and separated from training assumptions.

[ ] Every scenario question is answered with evidence or a stated limitation.

[ ] The detailed procedure was followed and each checkpoint is recorded.

[ ] Owners, decision rights, dates and review triggers are explicit where applicable.

[ ] Acceptance test met: The evaluation triangulates at least three evidence types, states limitations and alternative explanations, and defines an ethical experiment with success, guardrail and stop/scale criteria.

[ ] The final recommendation states residual risk and the next validation action.
