Course Overview

This one-day course develops the ability to explain service-brand value, translate strategy into experience, champion adoption and evaluate business impact. Eight real-use-case activities connect concepts to workplace evidence.

Course Code	C233
Duration	1 day · 7.5 hours
Training	7.5 instructional hours
Daily Time	9:30am–5:30pm

Learning Outcomes

- LO1: Explain how a service brand creates business impact, trust, differentiation and customer value.
- LO2: Apply an organisation's brand strategy to service promises, touchpoints and competitive advantage.
- LO3: Champion service-brand adoption through employees, communication, experience design and recovery.
- LO4: Evaluate service-brand impact using customer, employee, operational and commercial evidence.

Daily Schedule

Day 1 — Promise, Experience, Adoption and Impact

Time	Minutes	Topic / Activity	Method	Slides
9:30am–10:05am	35	Administration, course outcomes and introductions	Interactive presentation	—
10:05am–11:15am	70	Topic 1 and Activities 1–2	Interactive presentation · case study · discussion	Slides 14–41
11:15am–1:00pm	105	Topic 2 and Activities 3–4	Interactive presentation · case study · discussion	Slides 42–70
1:00pm–1:50pm	50	Topic 2 application and debrief	Interactive presentation · case study · discussion	Slides 42–70
1:50pm–2:20pm	30	Lunch	Lunch	—
2:20pm–4:00pm	100	Topic 3 and Activities 5–6	Interactive presentation · case study · discussion	Slides 71–97
4:00pm–5:20pm	80	Topic 4 and Activities 7–8	Interactive presentation · case study · discussion	Slides 98–133
5:20pm–5:30pm	10	Course recap, feedback and Q&A	Reflection · Q&A	—

Total instructional time excluding lunch: 450 minutes (7.5 hours).

Topic and Activity Breakdown

Topic 1 — Service Brand Value and Business Impact · Slides 14–41

Focus: Intangibility · trust · risk reduction · differentiation · commercial value.

Activity 1 — Babylist: Make an Intangible Service Easy to Trust · Slide 33

Use Shopify's Babylist example to diagnose how a service brand reduces risk and creates a clear reason to choose.

- Output: One-page service-brand value map and prioritised proof plan
- Acceptance: The submission separates facts from assumptions, links at least three proof cues to customer risk and business benefit, and states a defensible advantage with validation evidence.

Activity 2 — DBS: Translate 'Live more, Bank less' into Business Value · Slide 37

Use DBS's public brand promise to trace how a promise can influence customer experience and business outcomes.

- Output: Promise-to-impact logic model and 250-word management narrative
- Acceptance: The logic model contains capability, delivery, customer and business layers; every causal claim is labelled; and the proposed promise is original, relevant and deliverable.

Topic 2 — From Brand Strategy to Service Experience · Slides 42–70

Focus: Purpose · audience · positioning · promise · touchpoints · tangible cues.

Activity 3 — Ritz-Carlton: Promise-to-Proof Service Blueprint · Slide 61

Use the Ritz-Carlton Gold Standards as a public reference for translating brand intent into observable delivery.

- Output: Promise-to-proof architecture and service blueprint for four moments that matter
- Acceptance: The blueprint traces one promise through principles, observable standards, backstage enablers, tangible cues and measures, with explicit privacy and safeguarding guardrails.

Activity 4 — Starbucks: Redesign the Third-Place Journey · Slide 65

Use Starbucks's public mission as a lens for aligning positioning, environment, people and process across a service journey.

- Output: Current/future journey map and three-minute differentiated service concept pitch
- Acceptance: The future journey targets a defined audience, aligns all 7Ps, contains three signature moments with operational enablers, and addresses accessibility and viability trade-offs.

Topic 3 — Champion Adoption and Deliver the Promise · Slides 71–97

Focus: Internal branding · leadership · employee enablement · culture · recovery.

Activity 5 — Zappos: Build an Internal Brand Adoption System · Slide 89

Use Zappos's public culture materials to design an adoption system that aligns meaning, capability and reinforcement.

- Output: Internal-brand adoption charter and 30-day activation sprint

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Acceptance: The plan names role-specific behaviours, tools and guardrails; assigns sponsor/champion/manager ownership; and includes leading, behavioural and outcome evidence.

Activity 6 — Airbnb: Recover Trust Across a Service Ecosystem · Slide 93

Use Airbnb's public description of its community marketplace to design brand-consistent recovery across customer, provider and platform roles.

- Output: Service-recovery playbook with authority matrix and three customer messages
- Acceptance: The playbook protects outcome/process/interaction fairness, assigns ecosystem ownership, respects authority limits, and closes with a verified improvement action.

Topic 4 — Evaluate and Improve Service-Brand Impact · Slides 98–133

Focus: Measurement system · KPI logic · journey evidence · diagnosis · improvement.

Activity 7 — Singapore Airlines: Design a Balanced Brand-Impact Scorecard · Slide 115

Use Singapore Airlines's public service story as the context for a scorecard that connects employee capability, delivery and customer outcomes.

- Output: Eight-metric brand-impact scorecard, KPI dictionary and review agenda
- Acceptance: Every KPI has a decision, definition, source, owner and threshold; the set balances four evidence lenses; and the analysis identifies a segment-level action without unsupported causal claims.

Activity 8 — BOP Design: Evaluate a Human B2B Brand in an AI-Saturated Market · Slide 119

Use BOP Design's 2026–2027 trend perspective to build an evaluation plan for a real B2B professional-service context.

- Output: Brand evaluation report and one-page 90-day experiment brief
- Acceptance: The evaluation triangulates at least three evidence types, states limitations and alternative explanations, and defines an ethical experiment with success, guardrail and stop/scale criteria.

Resources Required

- Trainer slide deck and Learner Guide
- Eight individual activity folders with scenario PDF, mock data, questionnaire and checklist
- Spreadsheet software for mock-data analysis
- Internet access for cited public sources
- LMS access for courseware
